Description The Ashampoo Burning Studio is the professional software for burning CDs and DVDs. You can burn the files that you have downloaded from the Internet, to your hard drive, and to a CD or DVD. Furthermore, you can use the program to set up a Windows 7 DVD. You can choose the background of your DVD and add subtitles for any type of file. There is no need for additional software as you can also use the program to format your DVD. You can drag and drop data to and from the software, so that you do not have to go back and forth. When you are in the process of burning, you will receive immediate feedback. You can decide what speed to use and if your CD or DVD is suitable for your computer. With the various speed settings, you can burn files of various sizes, including audio files. The program uses the latest Windows 7 technology, and is optimized for the new operating system. Sharing files with friends and family is simple. You can add any type of file and any amount of data onto your CD or DVD. You can add a cover to your discs and can choose between various backgrounds and fonts. When you are in the process of burning, you will receive immediate feedback. You can burn to Audio CD or as a data disc. You can use the program to view the files that are on your disc. It is a very easy-to-use program, so that you can create a disc that is almost ready to use. Create a disc that works with your computer. The program includes a burn disc function. Create a disc that can play in any CD player. Create a disc that will work in the latest Windows 7 operating systems. Choose the background and the font for your disc. Create a disc that will play on 82157476af
